Guaranteed Shaving Sharp!

All Kershaw knives are guaranteed to be shaving sharp when received from the factory. If a Kershaw knife ever proves defective under normal use (naturally this does not cover intentional misuse or neglect), simply return it directly to Kershaw, and we will repair or replace it without charge.

Pride Proven in Performance

All Kershaw blades are manufactured of Kai Stainless Steel® from the AUS series (6A for pocket knives, 8A for survival and hunting knives). This steel is an improvement over famous 440-C, and has a hardness range of Rockwell C57-59. These high carbon stainless steel blades are heat treated by an advanced sub-zero quench to take an incredibly sharp edge that holds longer than conventional blades, and is much easier to maintain.

The best way to discover the true value of Kershaw knives is to compare them with other products on the market today. Compare the design. The craftsmanship. The performance.

In 1974, we set out to do some innovative things in the cutlery business without compromising quality for volume. We backed our products with a no-hassle, no-time-limit guarantee. These principles haven't changed through the years.

We can offer such a strong guarantee only because of our tough quality controls all along the way, and our policy of sending our customers only what we ourselves would buy.

I see a great part of the satisfaction of our efforts in the mail we receive from users of Kershaw Knives — letter after letter thanking us for service that isn't generally found these days and a product that exceeded their expectations.

You can be sure that every knife branded "Kershaw" is the best that's made. . . You've got my name on it.

Pete Kershaw

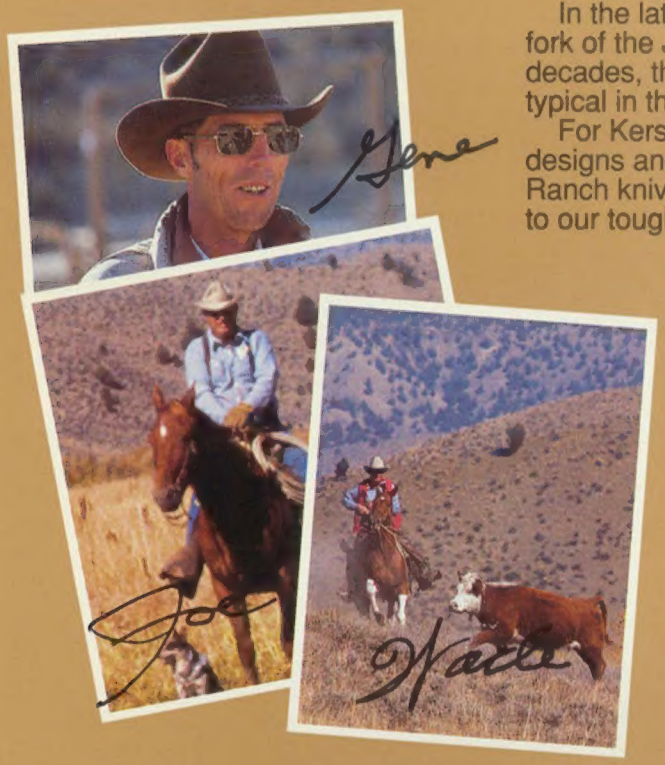
Officer Ranch Series

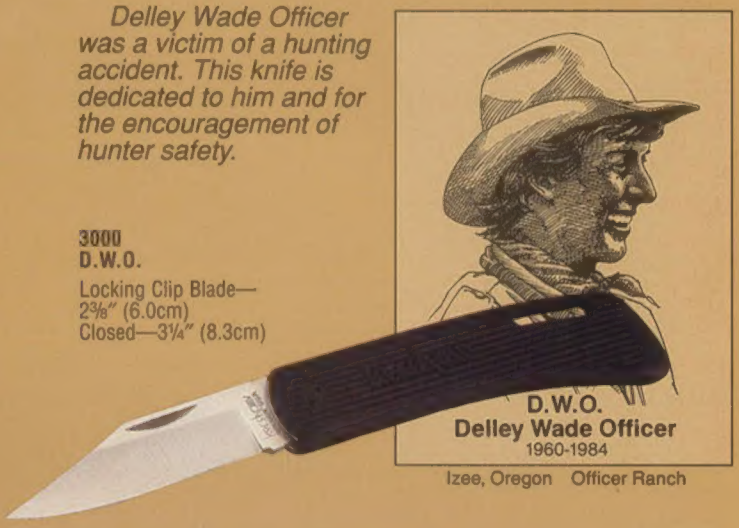


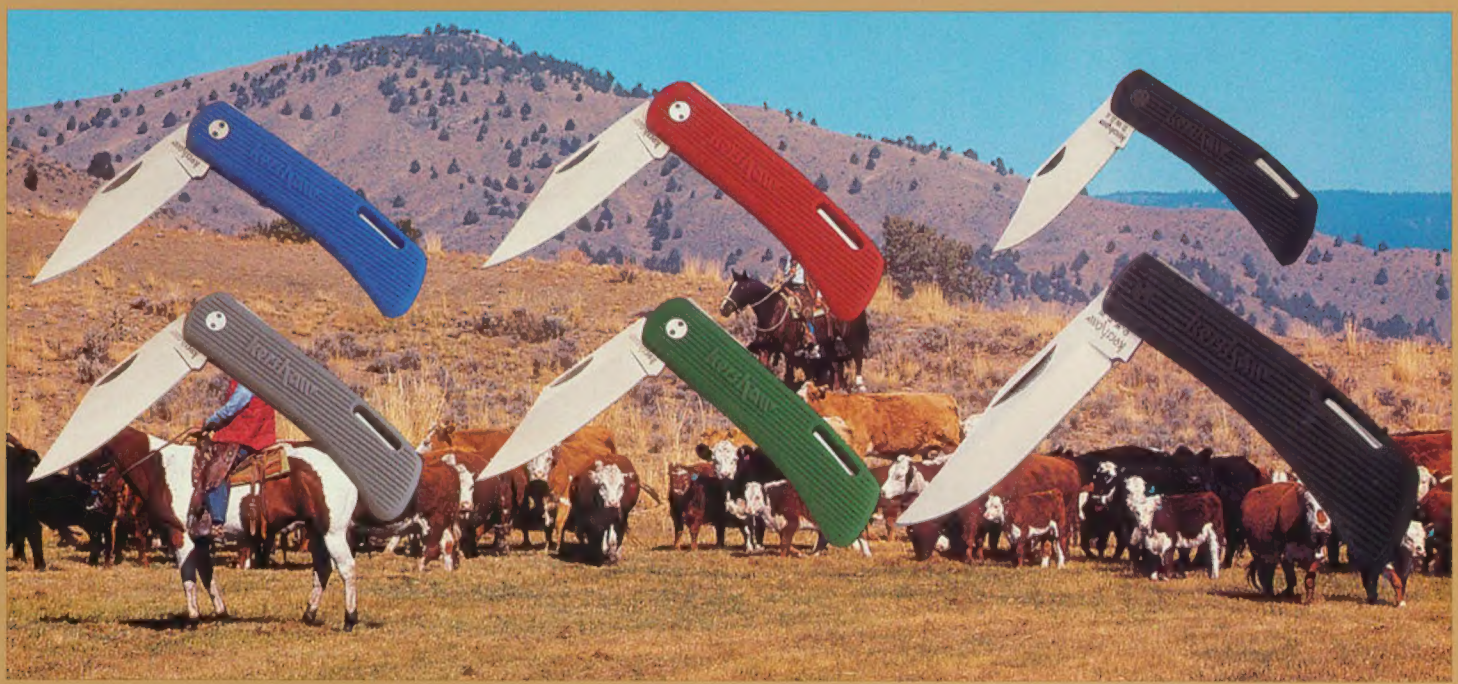
In the late 1800's, the Officer family settled in a valley on the South fork of the John Day River in Oregon's Blue Mountains. Over the decades, the ranch has been worked by the family, weathering the tasks typical in the life of the Western American rancher.

For Kershaw, the Officer Ranch is a source of ideas for new knife designs and a proving ground for every outdoor knife we make. Officer Ranch knives are designed for hard work and offer proven performance to our toughest customers. They are truly Ranch tough.

Delley Wade Officer was a victim of a hunting accident. This knife is dedicated to him and for the encouragement of hunter safety.

3000
D.W.O.
Locking Clip Blade—
2⅜″ (6.0cm)
Closed—3¼″ (8.3cm)





The highly popular D.W.O. is lightweight, but tough with Kershaw's famous "shaving sharp" stainless steel blade. Its slim design and rounded corners ride nicely in your pocket, and its comfortable Kershaw Task Force™ non-slip grip is now available in blue, red, gray, and green, as well as black. They look smart and are easy to find even when mixed in with your gear. The molded color of the grip won't ever fade, chip, or peel.

New for 1989, the D.W.O. II is the perfect little knife built for real work — and it's great for pocket or purse. The new larger D.W.O. III has the same easy-riding feel and comfortable grip as the smaller models, but its size gives you a better grip and more strength for bigger jobs.

The tough blades on Officer Ranch knives are all made of a strong edge-holding AUS 8-A high-carbon stainless steel (ideal Rockwell hardness C57-59). All the internal pins, springs, and side plates are polished to prevent rust and corrosion.

Great for work or dress, the sandalwood series features stainless steel bolsters with inlays of attractive close-grained sandalwood, finely crafted and hand-rubbed for a perfect fit.

Kershaw's Officer Ranch Folders are built for hard work. Every design has been tested on the Officer Ranch — the toughest proving ground we know of — where the demands on a knife go beyond what most of us would consider reasonable.

The result is a series of knives that are "ranch tough" — knives that can handle the toughest cutting tasks. Whether it's cutting heavy harness leather, repairing a saddle, or cutting through the hide and ripping the brisket of a six-point elk, these knives won't let you down.

Each is built to give a solid, comfortable grip — perfectly balanced with precision cross-grooved ABS scales. And as shown, one model is available with a black case and olive drab scales. The AUS 8-A blades have unsurpassable edge-holding ability, and, like all Kershaw Knives, they're guaranteed "shaving sharp."

We're sure these Officer Ranch Folders can meet every demand, because if they can't cut it at the ranch, they don't say "Kershaw."

The complete Officer Ranch Stag Collection is available (as shown) in a limited edition of 1200 serially-numbered sets in a handsome solid walnut presentation case.

The Officer Ranch Stag Collection proudly combines classic knife and blade designs from the Officer Ranch Series with the remarkable beauty of Indian Sambar Stag Horn. Each knife is a unique reflection of Kershaw's tradition of excellence.

These knives feature mirror-polished stainless steel bolsters, inlaid with hand-crafted scales of the finest selected Indian Sambar Stag Horn available. The blades are AUS 8-A high-carbon stainless steel, finished to Kershaw's famous "shaving sharp" edge. And even the smallest internal parts are mirror-polished to prevent rust and corrosion.

Available either individually or as a complete serial-numbered set with a handsome walnut presentation case, the knives in this collection are not only for display. They have been rigorously tested on the Officer Ranch — resulting in beautiful hard-working knives of collector's quality.

Official Boy Scout® Knife

Every man fondly remembers the "scout" knife of his youth. Kershaw's new Official Boy Scout Knife breathes new life into those memories. Never before has there been a Scout Knife like this one — one of our most popular Officer Ranch folders, superbly crafted and impeccably finished, then inset with a cast pewter medallion of the Official Boy Scout crest. Ranch-tough for everyday use and ideal for display, Kershaw's timeless Official Boy Scout Knife brings a smile to every Scout, young or old.

Officer Ranch Commemorative

Popular demand created Kershaw's Officer Ranch Folders Commemoratives. The Knife and Belt Buckle Set features the Black Gulch knife, a harness leather scabbard, and a large companion pewter belt buckle, hand-cast in a richly-detailed tableau of the Officer Ranch. Each set in this limited edition of 30,000 is engraved with *matched* serial numbers on the knife and buckle. Gift boxed.

Also as popular for gifts as they are among collectors are the Commemorative Belt Buckle, which is also available separately, and the handsome Officer Ranch Money Clip, meticulously cast with an authentic view of cowhands gathered at the Officer Ranch corral.

Folding Hunters

Kershaw's Folding Hunters are built tough to work tough.

Carefully designed and crafted to meet the tasks of hunting and rugged use, Folding Hunters have Malayan sandalwood and phenolic handles, all trimmed with polished brass. They're contoured to the hand with finger grooves for comfort and control, and they're perfectly balanced.

The locking blades are precision-fitted to open and close with a smooth, positive action and to hold firm without wobble. Every knife in our "flagship" Folding Field series reflects Kershaw's peerless quality and craftsmanship.

All-Purpose Pocket Knives

The Chum, Good Buddy and Rogue are longtime favorites as small pocket knives that are just right to carry everyday.

Over the years, they have come to be known as the "Easy Riders" because of their carrying comfort. The rounded corners of the polished stainless steel cases won't wear holes in a pocket. They are thin and lightweight, too.

Each blade is honed by hand (as are **all** Kershaw knives), and mirror-polished to resist rust and corrosion. Genuine Rosewood is inlayed on both sides of the knives. This precision process insures the inlays won't fall out or wear out.

These are tough, stylish classics you will be proud to carry, use and show to others.

No working knife is more elegantly suited to its purpose than a Kershaw Hunting Knife. Every blade is taper-ground to handle all of the cutting power you can muster. The added strength behind the cutting edge makes these heavy-duty fixed-blade knives the perfect answer for big game, and there's a model for every job.

Each blade is styled to give precisely the right size and shape for your work. Four hand-grinding steps are taken to set Kershaw's "shaving sharp" edge on our AUS-8A stainless steel blades. Every handle is contoured with finger grooves for comfort, and the blades have forefinger rests for added cutting control.

Kershaw has two types of fixed-blade hunting knives to meet every need. You can select a model featuring Kershaw's exclusive Task Force® non-slip rubber polymer handle and medium-polish blade for eash maintenance, or one with our gleaming phenolic-and-brass handle and mirror-polished blade. Whichever you choose, your Kershaw Hunting Knife assures the highest cutting control, quality, and value in a knife.

Each knife includes a custom-formed harness leather sheath.

Blade Trader

Over the last 5 years, the Blade Trader has become our most popular product.

Folks buy one for camping and picnics, and the next thing you know, they want one for their boat, motorhome, or perhaps their kitchen. They like the Blade Trader because of its versatility, quality, and value. The locking mechanism is so safe and simple to use that there is little that can go wrong. Plus, we've redesigned the handle and blades to meet the ever-increasing wide range of uses:

- The new Task Force™ Blade Trader has a more comfortable handle shape plus the non-slip Task Force™ rubber grip.
- The new blade shapes meet a wider range of cutting chores.
- The water-resistant zippered carrying case has been restyled.

1099TF
BLADE TRADER

COOKS BLADE — 8″ (20cm)
For dicing, slicing, carving, and heavy-duty cutting.

CARVING BLADE — 7½″ (19cm)
For all carving and general cutting tasks.

SAW BLADE — 7½″ (19cm)
For cutting through bone, campfire kindling and tent stakes.

BREAD SLICING BLADE — 7½″ (19cm)
For bread, fruits and vegetables.

FISH FILLET BLADE — 7″ (17.8cm)

HUNTING/BONING BLADE
Blade length: 3⅜″ (8.6cm)
Ideal for dressing and boning game and general cutting tasks.

TASK FORCE™ HANDLE
Provides a cushioned, non-slip grip even under wet and slippery conditions, and won't conduct heat or cold.

Camp Tool Trader

Kershaw takes its concept for interchangeable tools a step further with our new Camp Tool Trader. Three full-size cooking utensils make the Camp Tool Trader a great multi-purpose tool of a different kind — one to complement our Blade Trader for use in your motorhome, campsite, or kitchen.

The Camp Tool Trader includes a mixing or serving spoon, pot fork, and perforated turner, all superbly crafted of brushed and polished stainless steel. The utensils are easily carried and stored in their lightweight Cordura® pouch.

The contoured Task Force™ rubber polymer handle gives you a comfortable non-slip grip, and Kershaw's exclusive, simple locking mechanism holds each utensil safely and securely in place.

Compact and ideal for gifts, the Camp Tool Trader offers high value and Kershaw quality as the solution for versatility in the kitchen away from home.

Fisherman's Blade Trader

Fisherman's Blade Trader

For mountain stream fly-fishing, ocean bottom fishing, and anything in between, Kershaw's Fisherman's Blade Trader has all the blades you need to tackle any job. Three interchangeable blades are crafted of the highest-quality stainless steel, ground thin for flexibility, and then honed to Kershaw's famous "shaving sharp" edge for precise fillet work.

The Task Force™ handle has a cushioned, solid feel, with a non-slip grip under any condition, so it stays comfortable. The blade locking mechanism is simple so you can change blades quickly, yet it's strong and safe — the blades can't break away. And the bright orange handle improves safety.

Take it from Larry Schoenborn, star of TV's "Fishing the West" . . . Now there's a Blade Trader that's perfect for every fisherman!

Kershaw's Fisherman's Blade Trader is every fisherman's first choice! We've taken some great ideas from our Blade Trader and fillet knife series to design a multi-purpose fishing tool that you can take anywhere in its lightweight Cordura® belt sheath.

1096TF
FISHERMAN'S BLADE TRADER
Includes Cordura sheath with belt loop and Velcro® closure.

LARGE FILLET/SLICING BLADE — 8½" (21.5cm)
For filleting large fish, such as salmon, halibut, grouper and other saltwater or large fish.

FILLET/SLICING BLADE — 5½" (14cm)
Ideal for filleting trout, bass, and pan fish.

SERRATED UTILITY KNIFE — 5" (12.8cm)
Includes fish scaler. Excellent for cutting through tough jobs, removing heads.

TASK FORCE HANDLE
Non-slip grip even under wet and slippery conditions, and it won't conduct heat or cold.

Larry Schoenborn

CLEARwater

Clearwater Fillet Knives feature several blade lengths and handle designs, including the Task Force™ grips on the Folding Angler and two fixed blade knives. Each handle is permanently injection molded onto the tang of the fixed blade knives to prevent the blade from breaking loose from the handle. The blades are ground thin and flexible, honed razor sharp for quick and precise fillet work.

The "Skeeter™" Fly Tying Scissors are the professional's choice featuring wide finger loops for control, razor sharp cutting edges and fine points to tackle every task of the fly tyer.

Survival Knives

The Trooper is a classic work of art. Created with Old World craftsmanship, its blade is elegantly formed of Kershaw's superior AUS-8A double-edged stainless steel, ground shaving sharp, and inseparably bonded to a handle of select fine-grain ebony. The Trooper is serial numbered and accompanied by a custom-formed leather sheath with boot clip. The set is completed with a hard-side presentation case, registration card, and metal plate for engraving.

Kershaw's German Boot Knife presents a new concept in design. Hand-forged in Solingen, Germany, this distinctive knife is fashioned with a sandblasted non-reflective steel blade styled with a false edge on top and perfectly balanced with its matte finish micarta handle. Each German Boot Knife is equipped with a lightly oiled harness leather sheath with boot clip.

The Seychelles, Indian Ocean Photo by Pete Kershaw

On land and underwater, the Amphibian's full tang high-carbon stainless steel blade provides the durability and balance necessary to handle any tough cutting job. Serrations on one edge of the blade are intended for cutting heavy rope. The ideal design for diving, boating, and any waterborne use, Kershaw's Amphibian features a rubber grip and a flared guard at the bolster to provide complete control and confidence. Two sheaths are available. One is a leather sheath with belt or boot clip. The other is a plastic diver's sheath, complete with adjustable leg straps.

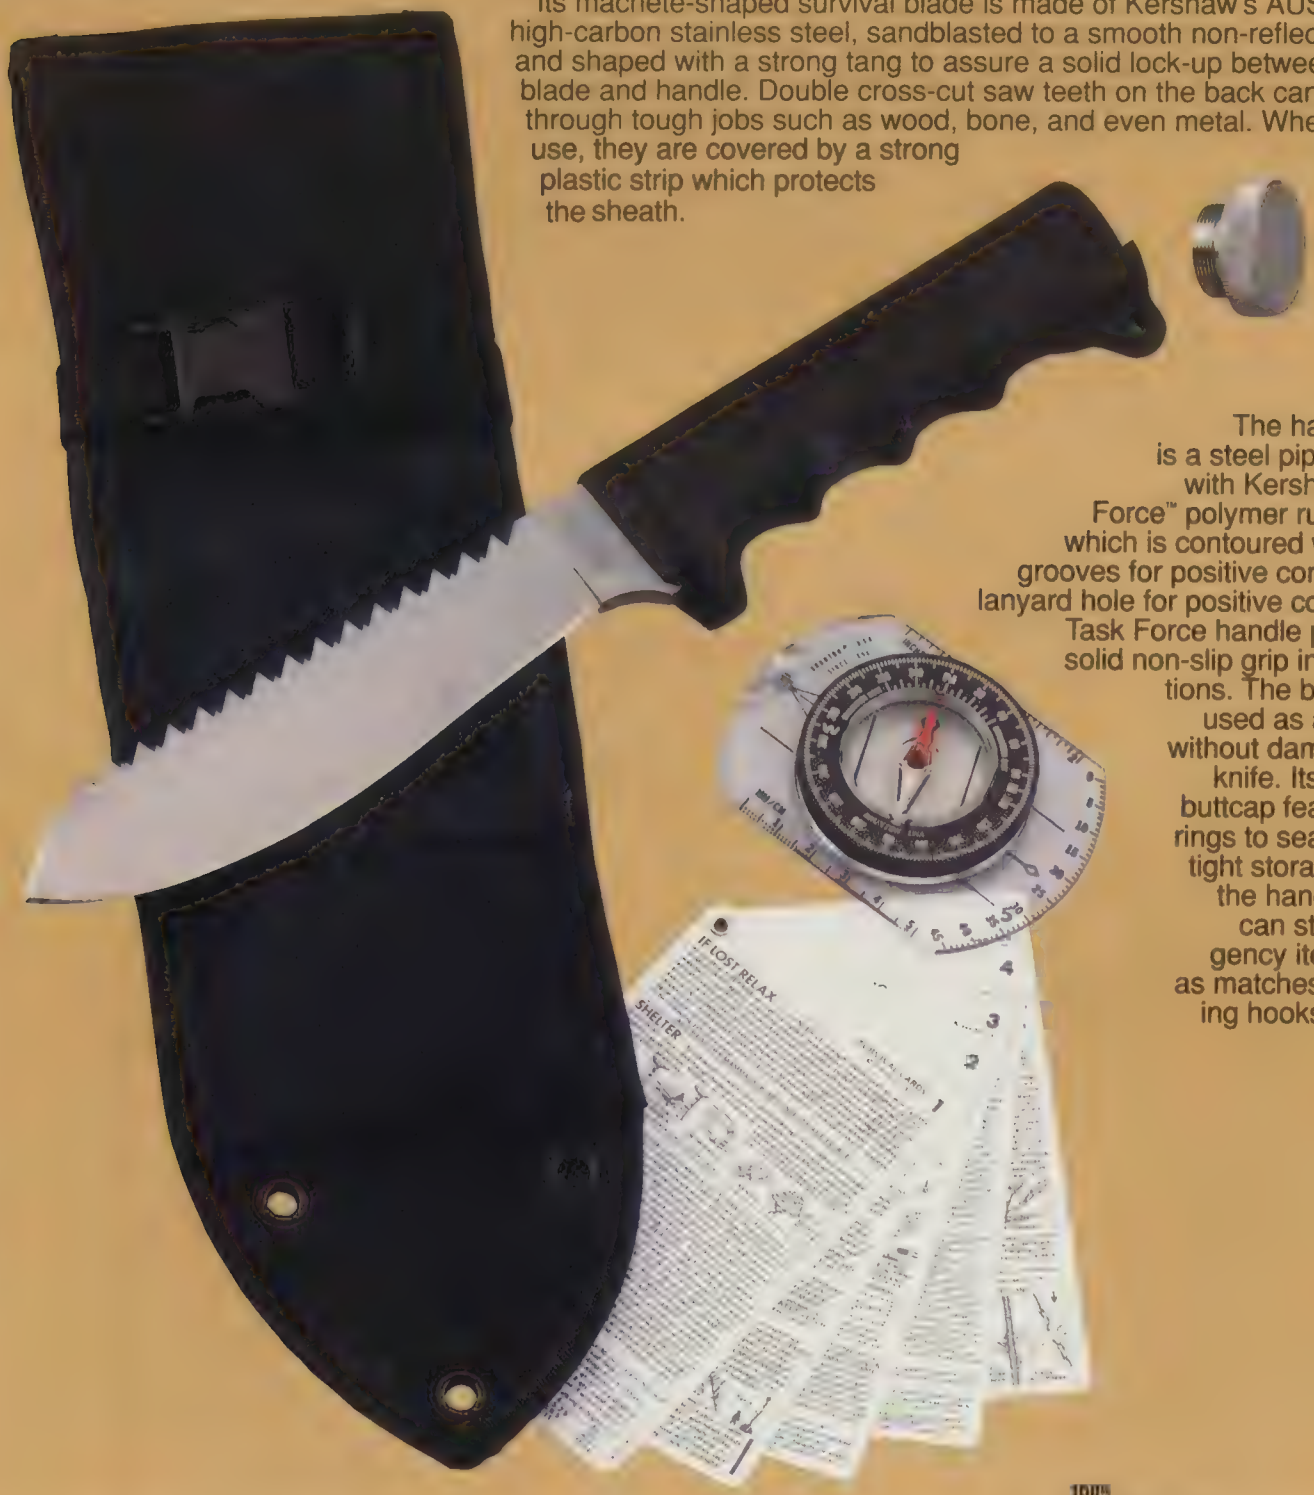
Kershaw's fixed-blade Survival Knife provides an added measure of safety in a multi-purpose knife designed for situations in the forest, outback, tundra, or anywhere a big knife for tough jobs can make the difference. It combines the most sought-after features you need in a functional, durable knife.

Its machete-shaped survival blade is made of Kershaw's AUS 8-A high-carbon stainless steel, sandblasted to a smooth non-reflective finish, and shaped with a strong tang to assure a solid lock-up between the blade and handle. Double cross-cut saw teeth on the back can saw through tough jobs such as wood, bone, and even metal. When not in use, they are covered by a strong plastic strip which protects the sheath.

The handle itself is a steel pipe covered with Kershaw's Task Force™ polymer rubber grip, which is contoured with finger grooves for positive control and a lanyard hole for positive control. The Task Force handle provides a solid non-slip grip in all conditions. The butt can be used as a hammer without damaging the knife. Its threaded buttcap features "O" rings to seal a water-tight storage tube in the handle, which can store emergency items, such as matches and fishing hooks and line.



The oversized Cordura® sheath provides two storage compartments, one for a full-size compass and waterproof survival cards, which are included. This heavy-duty sheath features wide loops for use with a belt or leg straps, a hold-down strap with quick-release clasp, and heavy-duty grommets.

Carved Ivory

North American Wildlife Series

Timeless beauty. Impeccable craftsmanship. Stunning realism. These are the qualities which mark Kershaw's Carved Ivory Collection for the serious knife collector and connoisseur of art.

The knives of the North American Wildlife Series and the Big Five African Game Series are remarkable: Not only for the flawless execution of bold strokes that bring to life the character of each subject; but also in the exquisite detailing which captures every subtle nuance and, indeed, the essence of the animal's nature. These classic works of art in carved ivory are fused with their perfect artistic complement, Kershaw's Trooper dagger blade. Together, they create an imposing new standard of perfection.

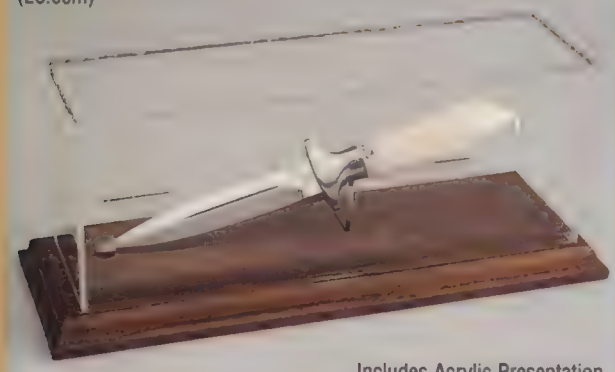
The artist? Renowned sculptor Erhard W. Gross, whose carvings and staturary have earned him international recognition as one of the foremost artists working in ivory in America. He has created the designs and carves each ivory handle in the Kershaw collection. His reputation and artistry—which can be seen in prestigious galleries nationwide—assured the instant success of these limited-edition series and have established the high value of these collectors' pieces.

African elephant ivory is the rare, highly-prized material from which these masterful creations are wrought. Mindful of our duty to protect the world's precious wildlife resource, we provide each knife with a certificate of origin and authenticity for the ivory executed by Pete Kershaw.*

Every Carved Ivory Knife by Kershaw is signed and numbered by the artist and includes a display case.

*All elephant ivory used by Gross is either certified to meet U.S. legal requirements under the Endangered Species Convention or comes from pre-convention stock. Fossilized and ancient ivory is unregulated.

Double Edged Blade—5¼" (13.3cm)
Overall (approximate) 10¼" (26.0cm)



Includes Acrylic Presentation Case with Walnut Base (as shown)

Big Five African Game Series—Edition limited to 100 of each Knife

Serengeti Plain, Kenya — Photo by Pete Kershaw, 1988

Shown here in his Oregon studio, Erhard Gross puts the finishing touches on a 16-inch "Breeching Humpback Whale." Special ivory carving commissions are available upon request.

Scrimshaw

Scrimshaw is an original American folk art developed by 19th Century whalers as something to pass the time between whale sightings. These early artists used the teeth and lower jaw bone of sperm whales, as well as ivory tusks, as their medium.

Kershaw Scrimshaw knives are individually scrimshawed one-by-one on natural bone handles, each a unique work of art. Absolutely no machine tools are used. The artist uses a pencil to draw the design on the bone and a pointed steel spike to etch the design into the bone.

To produce color scrimshaw, each knife must be etched by hand twice, one to etch the design, and again to detail the color into every fine line. Each piece is numbered, dated, and signed by the artist, and then placed in a handsome walnut presentation case.

Beautifully designed and finished to enhance the artist's renderings, Kershaw Scrimshaw knives are admired as fine works of art, increasing in value with each passing year.

A renowned scrimshander, Walter Alexander pursued art studies at the University of Washington and has extensively studied wildlife in Alaska. He regularly makes personal appearances at clinics and demonstrations and his work is displayed in publications on the art of scrimshaw. His exclusive limited-edition designs for Kershaw have become sought-after by collectors worldwide for their beauty and life-like authenticity.

Silver Spurs

PM Kershaw, Medford, Oregon, 1902

Just as P.M. Kershaw's handsome carriage once epitomized elegance in a lightweight conveyance, out attractive Silver Spurs are the answer for an elegant pocket accessory that's as light as a feather. The comfortably-grooved and flared handle is made of a space-age aircraft alloy that's as light as it is handsome. With a metal hardness rating even higher than that of Kershaw's famous high-carbon stainless steel blade, this alloy handle holds its satin luster while riding lightly in your pocket. And its lanyard hole is perfect for a keyring, so you can always find it. An attractive, useful knive.

Specialty Knives

The .12 ga. Shotgun Shell Knives and the .22 cal. "Pistol" knife are unique, yet functional pieces which reflect the Kershaw commitment to quality. These knives are compact working tools for every sportsman.

The .12 ga. features a rosewood or plastic handle, and is available with flatwalled screwdriver/file or field dressing hook along with a clip blade, in either model.

The .22 cal. "Pistol," is a compact folding knife perfect for small game dressing.

Both knives are ideal gifts for the sportsman.

Pocket Jewelry

Kershaw Pocket Jewelry is an elegantly styled collection of dress pocket knives.

Not for men only — the ladies find that a stylish little knife with scissors is just the ticket to have in their purses.

A perfect gift for the sportsman, The Canadian Honkers scene and The Old Course golf scene are die struck onto nickel silver scales by the same method used to mint gold coins.

The money clip and key chain knives have, in addition to the shaving sharp cutting edge, a handy pair of precision made scissors to snip a thread, or clip out a news article. Nice and thin, they have no sharp corners to damage clothing and they ride unnoticed in tailored trousers.

Each pocket knife can be engraved to make a gift even more special.

Stateside Series

The Stateside Series of Color-Etched knives features America and each of the Fifty States with a full color replica of an animal common to that state on the handle of a Model 5200 locking drop point blade knife.

Each symbol has been hand-painted, then permanently anatone-etched to the brushed stainless steel plate of the handle. Keys or coins in a pocket won't scratch or distort the scene.

All scenes have been carefully researched for authenticity.

Personalized

CORPORATE AWARDS

Kershaw Knives fit perfectly into executive gift and award programs. With our wide selection of styles and prices, most any need can be met. Personalization makes unique and special gifts which recipients cherish and fondly remember.

Any logo, design or name can be permanently fixed to any Kershaw knife on either the handle or the blade. The three processes available are: Engraving on steel, laser engraving on wood, or color etching.

Just ask your Kershaw sales representative or call direct for details. Whether it's one knife or thousands, we'll be glad to assist you.

TaskMaster™ Kitchen Cutlery

The blade designs of these knives are the same as those used by professional chefs. The blades are all crafted of famous Kershaw shaving sharp high carbon stainless steel and the handles are Task Force™ — a new rubber polymer material which provides a cushioned, non-slip grip regardless of your cutting chore.

The 6-piece Kitchen Cutlery Set features a knife for every task, an efficient and easy-to-use sharpening steel, and a pair of TaskMaster™ Shears that function as game, fish, poultry and all-purpose kitchen shears.

9000-6 KITCHEN CUTLERY IN WOOD BLOCK
9000 PARING KNIFE — 3″ (7.6cm)
9025 UTILITY/SANDWICH KNIFE — 5″ (12.7cm)
9040 CHEF'S KNIFE — 6″ (15.2cm)
9070 SLICING KNIFE — 9″ (22.9cm)
9100 SHARPENING STEEL — 9″ (22.9cm)

Also available (Not shown):
9020 BONING KNIFE — 5″ (12.7cm)
9045 CHEF'S KNIFE — 8″ (20cm)
9060 BREAD SLICING KNIFE — 8″ (20cm)
9075 SLICER/SCALLOPED EDGE KNIFE — 9″ (22.9cm)

The cutlery block is solid Western Maple, a choice hardwood that is every bit as beautiful as it is functional.

Task Master Shears

Kershaw TaskMaster Shears are capable of doing more hard work than you'll ever ask of them. With obvious versatility, they were designed with hunters, fishermen, campers, and everyday cooks in mind . . . and we guarantee no one will be disappointed. Fishermen appreciate the serrated blade — makes it easy to get and maintain a hold, so even the slipperiest of fish won't get away. Hunters and cooks use the bone notch to grip and then cut through game or poultry bones neatly and quickly. And for motor homes, camp, or general kitchen use, these mighty TaskMaster Shears also function as a nutcracker, jar opener, screwdriver, lid lifter, and bottle opener. Whatever your task, you won't find any other scissors that perform like the Kershaw TaskMaster Shears.

Incomparable Versatility. Shear Genius. *Kershaw Task Force™ Rubber handles make the TaskMaster Shears amazingly comfortable for right or left hand use, and they assure a solid, non-slip grip under wet and slippery, dry, hot, or freezing conditions. Of course, the high carbon stainless steel blades are the same as used in Kershaw Knives, so you know they're going to hold that "shaving sharp" edge longer. And when the job is done, they disconnect for easy cleaning.*

Kitchen Tools

This Professional Kitchen Tool Set is constructed to meet the heavy duty demands and exacting standards of the finest hotel and restaurant kitchens. They will last you a lifetime. All products are handcrafted of the highest quality materials. All blades and tines are Kershaw Stainless Steel to resist rust and stain. The tang of each tool extends into the shaped handle and is secured by three over-sized stainless steel compression rivets to prevent separation.

Bubinga Wood, a close grain African hardwood, of exceptional durability, is used for handle construction. Each hand rubbed handle is shaped to fit the hand comfortably and complement the tool's function.
